SUMMARY

From my first console.log of "Hello World", I was pretty much obsessed with software development. I'm currently a grad student with a good amount of web application experience. I am passionate about learning new technologies and software development practices. Below you'll find projects I've completed showcasing my skills and experience with developing software.

SKILLS

- HTML5
- CSS
- JavaScript
- Node.js
- React
- Redux
- Git
- Babel
- Webpack
- Postgresql
- Java
